Company

Advantage Diversified Products, Inc., manufactures, markets, sells and distributes proprietary, eco-friendly cleaning products. Its most recognizable product is ADVANAGE 20X, a highly-concentrated, multipurpose, eco-friendly cleaner. Founded in 1980, over 40 Million customers have purchased ADVANAGE the Wonder Cleaner®.

Our Green Commitment

All of us on this planet have been entrusted with the responsibility to make our air cleaner, our water pure, and our land better protected for our children and grandchildren. As a manufacturer of all-purpose cleaners, we have a serious obligation to leave the world a safe and healthy place for future generations. Yet, just about every popular cleaner on your grocers' shelf contains caustic, even toxic chemicals.

Every week millions of tons of harmful chemicals are finding their way into our streams, rivers, lakes and drinking water.

That's why ADVANAGE 20X cleaners are biodegradable, contain no phosphates, designed for unlimited applications, and are non-toxic, non-irritating to the skin.

Proprietary Emulsion Agent

The secret behind ADVANAGE 20X's super performance lies with its proprietary Emulsion Agent/surfactant. A surfactant (Surface Active Agent) is a cleaning chemical that changes the properties of a liquid at the surface.

To thoroughly remove grease and oil (whose chemical properties cause them to reject water), the cleaning liquid and oil must mix so that when wiped, the oil and cleaner are removed as one. If the oil and cleaning liquid do not combine or emulsify, then the oil will smear, and remain on the surface and on the cleaning materials.

ADVANAGE 20X's surfactant breaks down the surface tension (a barrier that acts like a thin plastic sheet) between the two liquids. This causes the two to mix together, making it easy to clean without leaving oily residual stains on the surface or on the cleaning utensils.

Now when ADVANAGE 20X is applied to a greasy, oily surface it works even better than ever. The surfactant wets, penetrates/dissolves, and lifts the oil from the surface with a single swoop.

In all, ADVANAGE 20X is an extraordinary product that's right for today's market where customers are knowledgeable, demanding, environmentally conscious and don't have time or money to waste.

ADVANAGE 20X comes in four renditions—Citrus, Green Apple, Lavender, and fragrance-free Clear.

In independent laboratory tests, ADVANAGE 20X surpassed the U.S. Government Standards for "Ready Biodegradability." In another test for cleaning effectiveness, ADVANAGE 20X scored 96% - far out-performing the brand name retail cleaner which only scored 87%.

ADVANAGE 20X QUART (GREEN APPLE)...\$39.95

ADVANAGE 20X (Green Apple) is a super-concentrated, multipurpose cleaner that is biodegradable and non-toxic. It has been specially formulated for cleaning mold and mildew stains and the removal of related odors. It is Ideal for sink and bath areas.

Like all ADVANAGE 20X Wonder Cleaners, Green Apple is safe around children and animals.

Now with Proprietary EMULSION AGENT to cut through oils, grease and grime.

ADVANAGE 20X QUART (CITRUS)...\$39.95

ADVANAGE 20X (Citrus) is a super-concentrated, multipurpose cleaner that is biodegradable and non-toxic. It has a citrus fragrance and serves as an excellent deodorizer in areas such as bathrooms, trash disposal units, and pet areas. ADVANAGE 20X (Citrus), with minimal effort, deodorizes as it emulsifies oils, dirt and grease leaving a refreshing clean scent.

Now with Proprietary EMULSION AGENT to cut through oils, grease and grime.

ADVANAGE 20X QUART (LAVENDER)...\$39.95

ADVANAGE 20X (Lavender) is a super-concentrated, multipurpose cleaner that is biodegradable and non-toxic. It is ideal for people who want a lingering gentle scent of lavender in the home. With minimal effort, ADVANAGE 20X (Lavender) is gentle enough for your finest fabrics yet strong enough to remove the most difficult stains.

Now with Proprietary EMULSION AGENT to cut through oils, grease and grime.

ADVANAGE 20X QUART (CLEAR)...\$39.95

ADVANAGE 20X (Clear) is a super-concentrated, multipurpose cleaner that is biodegradable and non-toxic. It has been specially formulated to clean lighter color carpets and all types of fabrics. ADVANAGE 20X (Clear) has no scent and is perfect for those who may be allergic to certain fragrances.

Now with Proprietary EMULSION AGENT to cut through oils, grease and grime.

ADVANAGE 20X SPRAY BOTTLE...\$4.00

This clearly marked 24-oz container is specially designed so you can add just the right amount of water to your ADVANAGE 20X . Heavy-duty sprayer included.

Each bottle pre-marked for 20:1, 10:1, 7:1, 5:1, 3:1, 2:1 and 1:1 dilution. These are indispensable accompaniments for your Wonder Cleaner. Works with all ADVANAGE 20X Cleaners

ADVANAGE 20X CLEANING KIT... \$34.95

The Exact Same Tools Your Door-to-Door Salesperson Uses

With this kit you'll be ready to tackle any cleaning job. Includes two 16" by 16" 300 GSM heavy-duty Microfiber Cloths; White and Green Scrounges; one Combination Brush, and Steel-Wool Pads. Includes one Foamer Pump to avoid dripping when cleaning vertical surfaces. Included is our ultraviolet Black Light to uncover stains and spots you never knew existed.

The Green Scrounge is an abrasive pad for stubborn stains or heavy buildup on not-so-fragile material or surfaces. The White Scrounge is a non-abrasive pad, which is to be used on delicate items or materials.

The Combination Brush has softer-nylon bristles on one side for minor stains and hard-to-reach areas. The wire bristled brush on the other side is a steel abrasive-type brush for cleaning heavy buildups and stains on hard surfaces such as concrete, asphalt, etc.

STAIN REMOVAL TECHNIQUES

Kool-aid stains - It depends on how long the stain has been in there and whether or not they previously used something on the stain. Two chemicals do not mix. Ask the customer if it is a fresh stain. Spray on ADVANAGE 20X 10 to 1, then lay a white towel on the spot and take a warm iron (not HOT) and press the spot. If this does not work, tell the customer about the other things ADVANAGE 20X does.

Rust and oil in the driveway - Spray the driveway down with water hose first, then use ADVANAGE 20X full strength pouring about 1/2 cup on the driveway and spreading it around. Take a large wire brush or a big toothbrush and rub it back and forth on the driveway stain. Let it set about 15 minutes, then brush again and rinse well.

Pink spots on the sofa - This is an example of when the customer has used ADVANAGE 20X too strong. All the customer should do is take plain water and clean the spot thoroughly and then put the blow dryer on it. The spot should go away.

Ink - This depends on how long the ink has been there. If the ink is in clothes, get a small toothbrush and put ADVANAGE 20X clear on both sides of the fabric. Brush, then rinse with clear water. Do this a couple of times, then drop into the washer.

Shower doors - This depends on the quality of the door (cheap or expensive). There are three or four kinds of glass. Ask the customer which kind of shower glass that the customer has. Then tell the customer to mix ADVANAGE 20X 7 to 1. Take a scrunge pad and wet it down so that it does not scratch the door. Then spray, sponge again, and wipe until the scum, etc, comes off.

Tub, tile and mildew - Spray ADVANAGE 20X (7 to 1 dilution). Take a scrunge pad and do it the same as the shower door. To remove mildew get a stiff brush and spray ADVANAGE 20X directly on to the area and using the stiff brush, rub back and forth.

DILUTION INSTRUCTIONS

Dilution Instructions for Concentrated ADVANAGE 20X Wonder Cleaners
32:1 Dilution
Glass/Mirrors Mix one (1) cap of ADVANAGE 20X to 32 ounces of water. Spray on surface, rub in and buff dry. NOTE: Wipe as you spray to prevent streaking and never clean in direct sunlight.
20:1 Dilution
Walls (Ink, Crayons, Pencil). For wallpaper, spray on and wipe off with a dry towel. Use same solution on wall panels and wipe clean. For greasy buildup, use a non-abrasive scrounge pad. Carpets. For spot cleaning, spray on and let stand for 30 seconds. Rinse with clear water and wipe dry with towel. When using a carpet shampoo machine, vacuum area to be cleaned first. Use one (1) cup of ADVANAGE 20X to every five (5) gallons of water, clean carpet concentrating on heavily soiled areas. Let dry and vacuum again. To clean without a machine, follow same procedures as above using a soft bristle brush to loosen soil, rinse and wipe clean with towel. Furniture. NOTE: <i>Test fabric for colorfastness or bleeding before cleaning.</i> For spot cleaning, use 20:1 spraying on stained area and rub in circular motion with a dry towel. For stubborn stains, use 15:1 and let stand for 3 to 5 minutes. You may use a nylon brush to assist you, rubbing in a circular motion. Rinse and wipe dry with towel. Laundry. For pre-washing, spray on spots or ring-around-the-collar using 20:1. Let stand for 30 to 60 seconds, and then rub with a nylon brush or towel. Add to your regular wash load. You may also add 1/2 cup of ADVANAGE 20X in your wash load. For fresh ink spots on clothing, place a towel underneath the spot and using the nozzle of the sprayer, rub in a circular motion over the stain after having sprayed directly into the towel. For old stains, spray the stained area directly and let stand for five (5) minutes. Add to your regular wash load. Use 2:1 for set-in stains; test first. Gum, Glue, Candle Wax. Using a pin or needle, punch holes in the gum, glue or candle wax and spray on using a 20:1 dilution. Let stand for 60 seconds and rub away the residue using a nylon brush. Paint Wash Surfaces. A 20:1 dilution before painting makes an excellent bonder. Use as a thinner by adding a 10:1 dilution per one gallon of paint. Linoleum/Tile. For general cleaning, use a 20:1 dilution to clean floors, then rinse. For tough stains a nonabrasive scrounge pad may be used. As a wax stripper, use an ADVANAGE 20X dilution of 2:1 along with an abrasive pad to remove wax buildup. Rinse. (CAUTION: <i>Do not use on no-wax floor!</i>) Formica, Ceramics, Marble, Brass, Porcelain, Venetian Blinds, Shingles, Sidings, Stainless Steel and Office Equipment. All the above may be cleaned with a 20:1 dilution. Spray on and use a non-abrasive scrounges pad to assist then wipe clean and rinse. For stubborn stains allow dilution to stand for 1 to 2 minutes before wiping clean. Rinse. NOTE: <i>For telephone equipment, computers, etc., do not spray directly into equipment. Dampen cloth and clean dirty areas.</i> Mildew, Screens, Brick. Using a nylon brush, spray on and scrub area to be cleaned. Rinse. Jewelry. Dilution can be used on all fine jewelry (gold and diamonds). Mix one (1) ounce of ADVANAGE 20X to twenty (20) ounces of water. Place jewelry (do not immerse watches) in the solution for 1 to 2 minutes. Remove and rinse with clear water. Use dry cloth to wipe clean. For watches, use same dilution however, substitute by rubbing the wristbands with nylon brush. NOTE: <i>Not recommended on zirconium and electroplated gold. Items must be pure gold.</i>
15:1 Dilution
Pet Stains. Using a 15:1 dilution, spray area where stained, and using a nylon brush rub in a circular motion until stain is removed. Rinse and wipe dry. For stubborn stains, allow to stand for 2 to 3 minutes. Rinse and wipe dry.
10:1 Dilution
Liquor, Soda, Coffee, Food and Grass Stains. Using a 10:1 dilution, pre-soak area and let stand for 60 seconds. Follow instructions given for laundry. Shower Stalls/Algae. Using a 10:1 dilution, spray the area to be cleaned and allow 1 to 2 minutes for

heavy buildup before wiping. Clean using an abrasive scrounge pad. Rinse.
7:1 Dilution
Swimming Pools. Using a 7:1 dilution, spray or pour into area to be cleaned and allow to stand for 3 to 5 minutes. Using an abrasive scrounge pad or wire brush clean and rinse. Lime, Tar. Spray on a 7:1 dilution and allow stained area to absorb (about 5 to 6 minutes). Spray again and clean using an abrasive scrounge pad. Rinse. Tough Carpet Stains A 7:1 dilution is recommended for heavily soiled areas on the carpet. Do not step on carpet until padding is dry.
3:1 Dilution
Ovens. Using our 'Wonder Pump Foamer' to clean ovens is extremely effective. Simply pump foam throughout oven, preheat for five minutes at 150°, turn off and pump more foam. While warm, clean using a green 3M-scrunge pad. Rinse and wipe. To order the Foamer call 800-323-6444 or order www.ADVANAGE20X.com . CAUTION. Spraying any liquid on electrical timing outlets will cause damage to unit
1:1 Dilution & Straight
Concrete/Asphalt (mix with hot water). Using a 1:1 dilution or straight from the bottle, pour on oil grease spots in driveway and, using a wire brush, work in a circular motion to lift the stains. Rinse with power hose. Household Pipes, Sewer and Septic Tanks. A 1:1 dilution followed by hot running water twice a month, will keep drains, tanks and pipes cleaner and fresh smelling.
Automobile applications
NOTE: Never use in direct sunlight! Also, do not spray on and let stand for long periods of time. Spray on and wipe immediately. Vinyl/Leather Interiors. Spray on a 20:1 dilution and clean using towel. Rinse. For stubborn stains, you may need to use a non-abrasive scrounge pad or nylon brush. Automobile Cloth/Velveteen Interior. Follow furniture instructions. Automobile Carpet. Follow carpet instructions. Automobile Chrome. For general cleaning use dilution of 20:1, wiping immediately as you spray on. For bubbly rust, spray on at same dilution using a non-abrasive scrounge pad to prime the surface. Rinse. Whitewall Tires. Spray on 7:1 dilution and use an abrasive scrounge pad to lift dirt. Windows/Mirrors. Use measurements prescribed for glass cleaner. Do not allow it to stand long - wipe as you spray and buff glass with cotton cloth. Fiberglass. Spray on a 20:1 dilution. Clean using non-abrasive pad. Rinse and buff dry. Exterior. Using a 20:1 dilution, wipe car clean using cloth towel. For oxidation, use same dilution with a nonabrasive scrounge pad to assist. Rinse and buff dry.
<i>When cleaning aids such as scrounge pads, nylon and wire brushes are mentioned, they may be purchased from your salesperson or can be ordered over the web or over the phone. The white scrounge is a non-abrasive pad, which is to be used on delicate items or material. The green scrounge is an abrasive pad; its primary use is for stubborn stains or heavy buildup on not-so-fragile material or surfaces.</i> <i>Nylon brushes are soft bristled brushes to be used on minor stains and hard-to-reach areas. A wire brush is a steel abrasive-type brush used to clean heavy buildups and stains on hard surfaces such as concrete, asphalt, etc. Improper use of these items will result in scratches and or damages on any surface, fabric or material. Always use with extreme caution. When using our Wonder Cleaners on delicate fabrics such as upholstery, carpet, silk, or leather, always test an unnoticeable area for color fastness and bleeding.</i>

CLEANING PRODUCT CHEMISTRY: TERMS AND DEFINITIONS

Alkaline	Aqueous solutions (solutions that mix with water) with a pH greater than 7 (Scale 1-14). Also called basic.
Biodegradable:	Products can easily be broken down or digested by, for example, sewage treatment. The ability of a substance to be broken down into simpler, smaller parts by a biological process. Many plastics are not biodegradable. According to an independent testing agency, ADVANAGE 20X exceeds the EPA's specification for "ready biodegradability" 7.6%.
Caustic	Strong alkaline substance which irritates the skin.
Degreaser	Usually made from synthetic surfactants, designed to emulsify oils and hold dirt.
Detergent	A specialty product that removes grease and greasy/oily soils from hard surfaces. Basic ingredients include surfactants that penetrate and emulsify along with alcohol or glycol derivatives to boost cleaning.
Diffusion	The spontaneous and even mixing of gases or liquids.
Emulsify	The dispersion or suspension of fine particles or globules of one or more liquids in another liquid. The action of breaking up fats, oils and other soils into small particles which are then suspended in a solution.
Hard Water	Water which contains calcium and magnesium salts that have dissolved from the rocks over which the water has flowed. Water that does not contain these salts is called soft water. There are two types of hardness -- temporary hardness, which can be removed relatively easy and permanent hardness, which is more difficult to remove.
Oxidation	To combine with oxygen. Slow oxidation is typified by the rusting of a metal.
pH	A scale ranging from 1 to 14 measuring acidity or alkalinity. A measurement of the acidity or alkalinity of a substance. It is expressed in a number from 0-14. Zero being a powerful acid and 14 being a powerful alkali. Distilled water is a 7. ADVANAGE 20X pH level is 11.
Phosphates	The workhorse of built detergents. Phosphates are alkalis which sequester hard water, provide alkalinity, suspend solids, and add bulk to cleaning compounds. A substance that is added to a detergent to increase its water softening ability. ADVANAGE 20X contains no phosphates.
Solvent	A liquid which dissolves another substance. Water is the most common solvent.
Surfactant	A chemical agent that reduces the surface tension of water allowing it to penetrate soils better than water alone. These surface-active agents modify the emulsifying, foaming, dispersing, spreading and wetting properties of a product. ADVANAGE 20X contains a patented surfactant (Emulsion Agent).
Toxic	Cleaning chemicals that contain poisonous chemicals like chlorine, ammonia, butyl cello solve and hydrochloric acid. ADVANAGE 20X is non toxic.
Volatile Organic Compound (VOC)	These are constituents that will evaporate at their temperature of use and which, by a photochemical reaction, will cause atmospheric oxygen to be converted into potential smog-promoting tropospheric ozone under favorable climate.
Water Hardness	A measure of the amount of metallic salts found in water. Hard water can inhibit the action of some surfactants and reduce the effectiveness of the cleaning process.
Wetting Agent	A chemical which reduces surface tension of water, allowing it to spread more freely.

RECENT CUSTOMER COMMENTS ABOUT ADVANAGE 20X

Use if for everything

By [kmh "katrina"](#)

The cleaner was used for every bit of household cleaning we needed, and one bottle lasted us a year because it takes so little to be mixed with water to do some powerful cleaning. When a slightly more potent mix of it is left to sit for only a few short minutes on oven grease, it wipes off as though something had just been spilled there a moment ago! The smell is very pleasant after use and I have no concerns with my dogs or our child being subjected to chemicals from mopping, etc. I have a feeling I'm going to be a lifer on this product, because going back to other name brand cleaners from the local store felt inadequate in comparison once we ran out.

Only cleaner you need

By [toni](#)

The advanage 20X multi-purpose cleaner green apple is the only cleaner you will need. It tackles the dirtiest jobs with very little effort for you to scrub on. The green apple leaves the job smelling great. I will be getting more of the advanage products for all my cleaning jobs. I just love it.

Best cleaner ever!

By [audrey](#)

My son brought me a bottle of this a number of years ago. I was amazed that it even cleans the grout on my tile floors, and the bucket too. I was sad when it was all gone. The product is great, but buy from Amazon.

Worked wonders on clogged kitchen drain

By [Sherry Cooper](#)

My kitchen drain was clogged and the sink was full of standing water. The clog remained for about a week. Nothing worked! I really needed to avoid calling a plumber, and I spied my Advanage 20X with my cleaning supplies. Nothing to lose, I thought, so I poured a healthy bit of Advanage 20X down the drain. As soon as I poured it into the sink full of motionless water, the water started draining rapidly. That was last night, and this morning, all is still running clear. This product is Wonderful! I will be ordering more. It is great for cleaning everything too.

Wow....this stuff really works!

By [LadyLydia](#) -

I have tons of kids running through my house. Busy neighborhood. My beige carpet is always filthy but on top of that our old carpet had black stains. My friend swore that 20x would remove the stain, so I bought it. Oh my gosh! I started with one spot then with another one. I sprayed a couple of concentrated 20x and let sit 5 minutes then cleaned with a damp cloth....WOW.....it removed my 10 yr stains. I had previously hired a professional cleaning company and they could not pick up the spots....I will definitely be ordering more of this stuff. I am sold!!!

Love it!

By [Roy A. Stagg](#)

I am so happy to be using a product that isn't bringing bad chemicals into my home. It works amazing on the grime around the faucet that can get built up. It has a pleasant scent and cleans well. I usually get headaches smelling the fumes of most cleaners because the chemicals are so strong. This product is great!

Use it for about everything,

By [J at LA "Jim"](#)

I own and operate a limo. I've used many different window cleaners in many years. Also I use different type of detergent mix for drinking glasses (inside of limo). I mix with one cap of Advanage + 1 shot of cheap Vodka + water to regular size spray bottle for windows and drinking glasses (Rock glasses, wine glasses, champagne flute). Just one cap of Advanage works better than Windex, Turtle window cleaner or rain drop window cleaner.

Cost of filling up Advanage to my empty spray bottle maybe just dollar or less because I use only one or two cap of Advanage. I love this not because cost effectiveness but it's the best product I've used. It saves my time to wipe whole limo windows and glasses in and out. Nothing sticks after you wipe windows with it. Just like waxed car body.)

I also use different mixture ratio for carpet, home kitchen, garage floor, cabinet and furniture.

Maybe you think "\$40/ bottle? no way !" honestly I felt that way too. Now I have 3 bottles of Advanage in my storage. Because I thought it's sold only door to door and I bought them whenever they come to my door. But my first bottle still not empty yet. (Everyday use for 2 years). I keep a spray bottle mix with Advanage in my limo, kitchen, personal cars, garage, everywhere. Give it try.

Great cleaner

By [Cee Michelle "Mama's On Fire"](#) (Portland OR) -

We ordered this because my sister-in-law used it and loved it! It does an amazing job on the grout and really gets built up gunk off the tile. It also does wonders on the glass top stove!!

This stuff is pretty darn good

By [Jessica Csaszar "Jessica"](#)

I decided to try this very expensive product. I originally got it because the bathtubs in my apartment are plastic and hard to clean. I still have to use a Magic Eraser when cleaning it but I have to tell you, this stuff is AMAZING on the rest of my house!! I have two Great Danes that are still young and make a mess in their crates. One of them is a bit nervous and has some anxiety issues so he does 'go' in his crate. This stuff is miracle cleanser for dog waste. They also drink a LOT of water which causes ugly marks on the carpet around them. I put this stuff in my carpet cleaner and my carpet almost looks brand new!!!!!!! I have to say I'm fairly addicted to this stuff and HIGHLY recommend it.

Excellent cleaner

By [Donna Meadows](#) -

I am amazed at how well this cleaner works. My granddaughter was washing my car, and I brought out Advantage. I sprayed it on the wheels, wiped it off, and they looked great! I sprayed it on an ink stain on the leather seat, and that came right off. That really surprised me because I had tried everything to remove ink from another leather seat. I don't see how a green cleaner, which you dilute, can work as well as this one does. The first time I purchased it was several years ago, from a young lady selling it door to door, for a youth

program. It was late in the evening, and she had to make her quota. I bought it just to help her out, and have just used it off and on for the past few years. Since it's "green", however, and two of my grandsons have asthma, I've become more aware of healthier cleaning options. I decided to look for it online, and here it is on amazon. Since this is the one I had, this is the one I bought, but I am happy to see there are other fragrances. Since I was re-trying it, and knowing that you use it diluted, I only bought the one. It will last a long time, and it's great! I just can't say enough good things about this product!

Really Awesome Cleaner!,

By [Kristine Kelly "Kristine L. Kelly"](#)

I love that I can use it on anything and don't have to use more than one cleaner for my house!

Door-to-door product actually works as advertised,

By [Santacruzian](#) -

My wife bought this from a guy who knocked on our door. We both were extremely dubious, but now she swears by this product. She uses to clean our Vent-a-hood, takes her 10% of the time vs other cleaners. I know this sounds too good to be true but.... it's true.

This Stuff Actually Works,

By [Artsygirl71 "AG"](#)

I had a dark spot on my carpet that my usual carpet cleaner was not removing. The spot always seem to re-appear after a few weeks because the carpet fibers were only be cleaned on top. Not deep cleaned.... Anyway, I used it...and it was the best carpet cleaner I ever used. My carpet looks like new. Carpet fibers cleaned from top to bottom. Needless to say, I was shocked. Since then, I have used it on my stairs and other high traffic areas with fantastic results. I have just ordered my 2nd bottle. The cleaner is a little pricey, but it will last you a long time. The only thing is...you must dilute the solution! I think straight solution could discolor fabric & carpet.....hasn't happened to me...so follow the instructions.

Wow is this the best ever,

[Aangel310](#)

It cleaned my grout in my kitchen faster than a steamer! There's no icky feeling on my hands after using a rag soaked in product and no strong horrible smell. My hands felt soft afterwards

It's just as amazing as it sounds

It was a few dollars more them the price here but I will be buying more! I love it!

I can't wait to clean my bathroom tomorrow.

I was doubtful BUT IT WORKS GREAT!

By [Patty A](#)

This product works wonders, it cleans stains off carpets (even old stains) cleans residue off floors, walls etc. we have 4 dogs that uses our Laundry room as their "doggie room" when we are out of the house and since Advanage 20x this room hasn't been cleaner! Great product and it lasts due to dilution, and that's using it slightly little stronger than called for.
